RE: 2015 Annual Export Report  
Clean Harbors of Connecticut  
51 Broderick Road  
Bristol, CT 06010  
EPA ID # CTD000604488

Via Email

To: Mr. Scott Nelson, Ms. Laura Coughlan and Ms. Jana Tatum:

In accordance with 40 CFR 262.56, Annual reports for Exports of Hazardous Waste, please find enclosed the Annual Export Report for Clean Harbors of Connecticut (CHCT). This report summarizes the exports of hazardous wastes during Calendar Year 2015.

Please be advised that CHCT did not export any SLABS (spent lead acid batteries) in 2015.

If you have any questions or concerns regarding this report please do not hesitate to contact me at (781) 792-5174 or via email at [medinad@cleanharbors.com](mailto:medinad@cleanharbors.com).

*"I certify under penalty of law that this document and all attachments were prepared under my supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."*

Sincerely,  
Clean Harbors of Connecticut Inc.

Exporter Name:	Clean Harbors of Connecticut Inc.
Exporter EPA Identification Number:	CTD000604488
Exporter Mailing Street Address:	761 Middle Street
Exporter Mailing City:	Bristol
Exporter Mailing State:	Connecticut
Exporter Mailing Zip Code:	6010
Exporter Mailing Country:	USA
Exporter Site Street Address:	51 Broderick Road
Exporter Site City:	Bristol
Exporter Site State:	Same
Exporter Site Zip Code:	Same
Exporter Site Country:	Same

Calendar Year Covered by Report:	2015
----------------------------------	------

Exporter Certification

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment.

Exporter Printed Name:	David S. Medina
Exporter Signature:	
Date of Signature:	1/12/2016

[illegible]

As required in 40 CFR 262.56(a)(5) and 40 CFR 262.87(a)(5), Except for hazardous waste produced by exporters of greater than 100 kg but less than 1000 kg in a calendar month, unless provided pursuant to §262.41 [biennial report], when submitting in even numbered years:

(i) A description of the efforts undertaken during the year to reduce the volume and toxicity of waste generated:	Please See Attached
(ii) A description of the changes in volume and toxicity of waste actually achieved during the year in comparison to previous years to the extent such information is available for years prior to 1984:	Information regarding the changes in volume and toxicity of waste actually achieved during the year in comparison to previous years is not available.

Acceptable Units of Measurement
G = Gallons (liquids only)
K = Kilograms
L = Liters (liquids only)
M = Metric Tons (1000 kilograms)
N = Cubic Meters
P = Pounds
T = Tons (2000 pounds)
Y = Cubic Yards

**WASTE MINIMIZATION PLAN**  
**CLEAN HARBORS OF CONNECTICUT, INC.**  
**51 Broderick Road, Bristol, CT 06010**

Clean Harbors of Connecticut, Inc. (CHCI) is a hazardous waste treatment storage and disposal facility Licensed under 22a-454-CGS of the Connecticut hazardous waste regulations (Part B Permit DEP/HWM-017-004). Pursuant to section 3005(h) of the Hazardous and Solid Waste Amendments of 1984 (HSWA), CHCI has developed and maintains this Waste Minimization Plan which supports efforts by its customers who generate and transport wastes to our facility for recycling, reuse or treatment.

Waste minimization is defined by the U.S. EPA as the reduction, to the extent feasible, of hazardous waste that is generated or subsequently treated, stored or disposed, and includes both source reduction and recycling. Source reduction is defined as the reduction or elimination of waste generation at the source, usually within a process. Recycling refers to 1) the use or re-use of a waste as an effective substitute for a commercial product, or an ingredient or feedstock in an industrial process, and 2) reclamation, which is defined as the recovery or regeneration of a useable product from the processing of hazardous waste. In its Interim Final guidance of the Elements of a Waste Minimization Program published in the Federal Register on May 28, 1993 (FR vol. 58, No. 102, Page 31114), EPA outlined six basic elements that should be incorporated into a successful waste minimization program. These elements include: 1) Top management support; 2) Characterization of waste generation and waste management costs; 3) periodic waste minimization assessments; 4) appropriate cost allocation; 5) encouragement of technology transfer; 6) program implementation and evaluation.

The CHCI facility has permitted processing areas with capabilities and services that support waste minimization/pollution prevention efforts of businesses and commercial activities. In particular, CHCI is permitted to accept, consolidate, store and dismantle certain types of electronics and transport universal wastes to other Clean Harbors facilities for recycling. CHCI also provides solidification of wastes to enable reuse for landfill cover and stabilization of metal-containing waste to stabilize mobility of toxic constituents to render wastes non-hazardous. It also maintains a "Paint Processing Area" which serves to sort and manage containers of paint by type (either water-based latex or oil-based alkyd paint); repackaged paints wastes in containers or bins for storage and off-site shipment to an end-of-life management facility for treatment, recycling, energy recovery, or disposal in accordance with the requirements and provisions of the Paint-Care Program. Used oil is also accepted and bulked for shipment to fuel blending facilities for energy recovery purposes.

CHCI is dedicated to the reduction and elimination of waste wherever economically practicable. CHCI adopts and implements this Waste Minimization Plan pursuant to the EPA and State of Connecticut guidance policies and programs.
